After a moment, you should see the new version of the music appear in the music library, directly under the original version currently selected from the track. Select the new AAC version of the music and copy it to a location on your computer. Tap the Edit button at the top of the screen and choose the touch you want to use. The music must sync with your iPhone immediately. There is a sést of factors that determine whether a song Makes the Top 40 list. On a PC, click the View tab at the top of the folder and check the extensions of the file name in the option range. It is a list of the 100 most popular US outdoor songs also tracks if a music is larger or smaller in the graphics every week, its peak position and its total weeks in the graphics. Click Tones on the left side of the screen, in the section on my device. Connect your iPhone to your computer with a USB relay cable and click on the iPhone icon in the upper left corner of the iTunes window. Click OK to save your changes. A rite of passage for the songs is having a music in the top 40 hits radio. You can watch the musical video and hear almost all the music directly on the Billboard website. In addition to Hot 100, outdoor also tracks Outdoor 200 and artists 100. In the iTunes Music library, find a song that you want to turn on a ringtone and click on it to select the music. Click the music file, and after a moment click on it a second time for you to edit the file name. In the dialog box information, click the Options tab. For an artist doing the top 40, he or she needs to have high radio plays. Touch touch. The process begins on your computer where you will use iTunes to choose a part of 30 seconds of a music and export this music clip into a file format that your iPhone can recognize as a touch.
